# Meet Sade Morel, RDHAP

*Sade Morel*

Sade Morel, RDHAP, is a dental hygienist, educator, and practice owner in California with over 19 years of experience in dentistry. As the founder of a mobile and in-office dental hygiene practice, Sade is dedicated to expanding access to preventive oral care while empowering dental professionals through mentorship and education.

Her work focuses on dental hygiene autonomy, integrative medicine, and bridging the gap between dentistry and overall health. Through speaking engagements, workshops, and collaborations with leading dental brands, Sade inspires clinicians to expand their impact in the profession.

## Professional Highlights

### RDHAP Practice Owner

- 19+ Years in Dentistry
- Mobile Dental Hygiene Provider
- Dental Hygiene Mentor
- Speaker & Brand Collaborator

# Dental Hygiene Autonomy

---

Dental hygiene is evolving rapidly, offering clinicians new opportunities to expand their professional independence and impact patient care. This presentation explores how hygienists can embrace autonomy, advocate for their profession, and pursue innovative practice models.

## Learning Objectives

---

- Understand the concept of dental hygiene autonomy
- Explore evolving roles of dental hygienists in healthcare
- Identify opportunities for professional growth and leadership

## Key Takeaways

Confidence in expanding clinical roles  
Strategies for professional advocacy  
Insight into the future of dental hygiene

Suggested Audience: Dental and Healthcare Professionals (1 Hour Lecture)

# Integrative Medicine & Oral Health

---

Oral health is deeply connected to overall systemic health. This presentation explores the role dental professionals play in integrative medicine and how collaborative healthcare models can improve patient outcomes.

## Learning Objectives

---

- Understand the oral-systemic connection
- Explore the role of dental professionals in integrative healthcare
- Identify strategies for patient education on whole-body health

## Key Takeaways

Better patient communication strategies  
Improved interdisciplinary collaboration  
Expanded understanding of oral-systemic relationships

Suggested Audience: Dental and Healthcare Professionals (1 Hour Lecture)

# Starting Your Mobile Practice Business 101

---

Launching a mobile dental hygiene practice enhances care access while allowing for an independent career. This presentation outlines the steps to start such a practice, covering planning, legal aspects, branding, equipment, and patient acquisition. It's aimed at hygienists looking to build a successful mobile business with practical insights.

## Learning Objectives

---

- Understand the foundational steps to starting a mobile dental hygiene practice
- Identify key legal, licensing, and compliance requirements
- Learn how to select equipment and set up a functional mobile workflow

## Key Takeaways

Clear roadmap to launching a mobile dental hygiene business

Practical strategies to attract and retain patients

Insight into building a sustainable and scalable practice

Suggested Audience: Dental and Healthcare Professionals (1 Hour Lecture)

# The RDHAP Career Path

---

Registered Dental Hygienists in Alternative Practice are redefining access to care. This presentation offers a practical overview of the RDHAP pathway and how hygienists can pursue independent practice opportunities.

## Learning Objectives

---

- Understand RDHAP licensure and requirements
- Explore independent practice opportunities
- Learn how RDHAPs expand access to care

## Key Takeaways

Clear understanding of the RDHAP pathway

Confidence in pursuing alternative practice

Inspiration for career growth

Suggested Audience: Dental and Healthcare Professionals (1 Hour Lecture)

# Building a Mobile Dental Hygiene Practice

---

Mobile dental hygiene practices provide innovative solutions to expand access to preventive care. Drawing from real-world experience, this presentation explores the strategies and lessons involved in launching and growing a mobile hygiene practice.

## Learning Objectives

---

- Understand the fundamentals of mobile hygiene practice
- Identify opportunities for community outreach
- Learn operational considerations for mobile care

## Key Takeaways

Practical steps to start a mobile practice  
Real-world insights from an experienced RDHAP  
Strategies for sustainable practice growth

Suggested Audience: Dental and Healthcare Professionals (1 Hour Lecture)
